

Greater Glasgow and Clyde: Alcohol and Drug Prevention Framework

Summary of main framework elements and links to key documents

November 2020

Framework element	Brief Summary of Each Element and Hyperlinks for Download
Overall	The suite of documents that comprise the Greater Glasgow and Clyde Alcohol and Drug Prevention Framework have undergone a number of quality control and update steps and are now being made publicly available for use by partners. They may be downloaded and distributed as required. All will be subject to regular review and update and we invite partners to engage in continuous development of the framework content
Introduction and Summary of Framework Elements	A brief introduction paper has been produced that sets out purpose of framework, intended audiences, and sets out a guide to the main elements of the Framework Access to download Introduction via this link .
Evidence Briefing 1 – Context	This context briefing contains 3 aspects of alcohol and drug prevention: <ol style="list-style-type: none"> 1. Definitions and types of prevention, 2. Headline stats about alcohol and drugs, and the health and social impact of their use, and 3. Main policies relating to alcohol and drugs Access to download Evidence Briefing 1 via this link .
Evidence Briefing 2 – Key Themes*	Briefing 2 highlights a major range of cross-cutting themes that connect with the approaches set out in the following briefings 3-8. Our intention will be to continually develop these as “living documents” on a partnership basis, adding links to practical resources, sources of assistance. For example we will be linking to recent national and regional work on Whole System Approaches, and to Workforce Development / Training opportunities as they develop Access to download Evidence Briefing 2 via this link: https://www.nhsggc.scot/downloads/evidence-briefing-2-key-themes-10-0-2019-website/ <hr/> <hr/>
Evidence Briefing 3 – Society-wide approaches	Access to download Evidence Briefing 3 via this link: https://www.nhsggc.scot/downloads/final-eb-3-society-wide-20-09-18/

Evidence Briefing 4 – At-risk groups and vulnerabilities	<p>Access to download Evidence Briefing 4 via this link: https://www.nhsggc.scot/downloads/final-eb-4-at-risk-groups-2020-9-18/</p>
Evidence Briefing 5 – Pre-birth, Infancy and Early Years	<p>Access to download Evidence Briefing 5 via this link: https://www.nhsggc.scot/downloads/final-eb-5-pre-birth-and-early-years-2020-9-18/</p>
Evidence Briefing 6 – Children and Younger People	<p>Access to download Evidence Briefing 6 via this link: https://www.nhsggc.scot/downloads/final-eb-6-children-and-young-people-2021-8-18/</p>
Evidence Briefing 7 – Adults	<p>Access to download Evidence Briefing 7 via this link: https://www.nhsggc.scot/downloads/final-eb-7-adults-2020-9-18/</p>
Evidence Briefing 8 – Older People	<p>Access to download Evidence Briefing 8 via this link: https://www.nhsggc.scot/downloads/final-eb-8-older-adults-2020-9-18/</p>
Monitoring and Evaluation	<p>While the development work has needed to be paused for now due the pandemic, the Alcohol and Drugs Health Improvement Team will be working with GGC Public Health Directorate and a range of additional colleagues to create a suite of support resources to guide monitoring evaluation and research in the fields of prevention and harm reduction. This will include linking to toolkits, frameworks and research resources of all kinds</p> <p>Examples will include Public Health Scotland’s Tools for Monitoring and Evaluation, http://www.healthscotland.scot/tools-and-resources/tools-for-monitoring-and-evaluation, and material from agencies like Carnegie Trust https://www.carnegieuktrust.org.uk/publications/engaging-with-evidence-how-communities-can-get-and-use-evidence/ and IRISS (“Confidence Through Evidence Toolkit https://toolkit.iriss.org.uk/)</p>

<p>Data Sources and Intelligence</p>	<p>As partnership work progresses in relation to the framework we will be gathering and sharing links to a range of data sources that can inform prevention and harm reduction practice.</p> <p>This will also include linking to new initiatives, like data dashboard developments</p>
<p>Annexes (including literature review source material)</p>	<p>Annex 1 is an Excel document that lists all the literature sources gathered from each of the Evidence Briefings. Other background aspects of the work will be shared via this section in due course</p> <p>https://www.nhsggc.scot/downloads/nhs-ggc-prevention-framework-final-bibliography/</p> <hr/> <p>Annex 2 – is a document that describes the background to development of Prevention Framework and the multi-agency approach taken.</p> <p>Annex 3 – is a document that lists the Acts, Initiatives, Strategies, and Reports that ensure prevention activity fits with current policy and within an evidence base of effectiveness.</p>
