Jane Davies Award for Person-Centred Practice

Jane Davies worked in the NHS in Scotland for more than 34 years. Her career spanned NHS Lanarkshire, The Scottish Government, NHS Education for Scotland and the Community Engagement Directorate of Healthcare Improvement Scotland until her death on 29 August 2022. Throughout her career Jane's passion was helping people. Helping people who work in health and care services to focus on compassion, kindness and the things that really matter, and working to create the conditions that help people who receive health and care services to get the best possible care and attention.

Now, the Jane Davies Award for Person-Centred Practice aims to provide an opportunity for the work that Jane loved so much to continue and be influenced by her example and the values she held at her core. This award reflects the values Jane passionately advocated for and dedicated so much time and energy to throughout her life.

Nominations are invited for this award from all health and social care services across Scotland.

To view the criteria and enter this award, download the nomination form and email it to: his.wmty@nhs.scot.

The closing date is **Friday 14 March 2025**.

LGBTQ+ Leadership Event

Following the success of the first event in 2024, we are holding our second LGBTQ+ leadership programme. This has been developed, working closely with the LGBTQ+ Staff Forum, and is taking place 9.00am – 4.00pm on 10 April.

The event will support LGBTQ+ members of staff to explore our individual identities and how these impact on how we lead authentically. It will also allow participants to reflect on the power of connection, civility and community, and hear from inspirational keynote speakers on their own, very personal leadership journeys. There will be plenty of opportunities for interactive discussion and personal learning.

If you are an LGBTQ+ member of staff in a leadership position, or looking to take your first step into leadership, this is a great opportunity.

Be Phishing and Vishing Aware!

Phishing and Vishing are forms of social engineering, a technique used to gain access to private information, often via email. It can cause a huge amount of damage, disruption and distress. To help prevent social engineering attacks at NHSGGC and at home, remember N.E.T.

No Trust
Verify, via alternative means, the identity of those sending unexpected messages, even if the contacts are known to you.

Educate Yourself
Complete the Security and Threat module on LearnPro. Check online sources to see if emails, SMS messages or other forms of social engineering attacks are known or commonplace. Remember, educating yourself can protect you in both your work and personal life.

Think First
Successful attacks generally require a sense of urgency. Stop! Take a moment to reflect and investigate, this can show these attacks for what they are.

Managing technology and data safely and securely is everyone's responsibility throughout NHSGGC.
