Patient Engagement and Public Involvement – Lunchtime Learning Sessions now LIVE!

Planning a service change? Want to better understand your patient experiences? Looking to gather real feedback or looking for help in how you can get feedback?

Join our 40-minute, drop-in Lunchtime Learning Sessions! These bite-sized sessions will introduce you into essential tools and tips for involving patients in shaping your service.

You'll leave equipped with the know-how on ways to engage with patients effectively plus insights into connection with the Patient Experience and Public Involvement (PEPI) Team for ongoing support.

There are no attendance limits - bring the team!

To register, please use the links below. You can attend as many sessions as you wish.

12.00pm – 12.45pm, Tuesday 25 February 2025 – Who are the PEPI Team?

New group established to encourage patient views on cancer care innovation

Cancer patients and their families will share their views on innovative solutions to support their care through a newly-established group.

The Patient and Public Involvement in Innovation group has been established by the West of Scotland Innovation Hub (WoSIH), the Beatson West of Scotland Cancer Centre and the Beatson Cancer Charity.

Its aim is to understand the types of digital, data-driven and device solutions that could best support patients and their families.

The group is being led by Oncologist and Cancer Innovation Lead Professor Ioanna Nixon, Karen Bell, Cancer Research Network Manager at the Beatson, Dr Katriona Brooksbank, Research and Innovation Lead for the WoSIH and NHS Greater Glasgow and Clyde, and WoSIH Industry Collaboration Project Manager Ray Syed.

They would like staff to make patients aware they are looking for a broad balance of voices, including people of different genders, ethnic diversities and all backgrounds to join. No special skills are required.

The next PPI group workshop will be held in February. For more information, please contact karen.bell17@nhs.scot or rasheeq.syed@nhs.scot
