The evening finished on a tremendous high with the presentation of not one but two Chair's Awards of Excellence. These awards recognised outstanding achievement, expertise and dedication in patient care.

The winners of these awards are;

Andrew Thomson, Royal Alexandra Hospital for his care and compassion towards one of his patients who was going through a high risk pregnancy when her husband sadly passed away after a two week battle with cancer. He has an incredible way of communicating with patients and their families, with empathy and intuitiveness in abundance.
